Know your rights and responsibilities as a tenant:

- Can I be evicted?
- What does the landlord have to fix?
- Can my landlord harass me?
- If I complain, will I be evicted?
- Can I take in boarders to help with rent?
- What if my building is sold or foreclosed?
- How do I recover my security deposit?

NPC is an organization that is looking to help everyone understand the rights they have when it comes to renting or owning their home, regardless of legal status. There are legal rights to protect every person who rents an apartment or room. It is important to know these rights as well as to know what rights your landlord has.
